CONDITIONS OF TRADE.

Dun's Review Says There Is a Steady Gain In It.

New York, June 19 -- Dun's Review, in viewing the markets of the past

The retarding influence of cold and unseasonable weather has passed. The gain in business which in spite of it was seen a week ago, has become clearer to all. There is evidence of gradually enlarging business in every important department, more establishments have been set to work and more hands employed, and while prudence still hinders speculative excesses the progress toward better things is unchecked. Reports from the various cities this week show a very general progress, and a continuing large distribution through retail trade.

Stocks have been very strong, and in three days' purchases exceeded 750,000 shares, and prices, after some weeks' rise, had half a day's reaction on Wednesday, only to rise again nearly 75 cents per share on Thursday. Railcoad earnings are encouraging, in June 6 per cent larger than last year and only 4.1 per cent less than in 1892, and tonnage shows improvement, especially in west bound iron products, glass, sugar and farm machinery. Failures in two weeks ending June 10 were \$4,944.

953. against \$3,908.844 last year, \$5,151. 341 in the same weeks of 1895, exclusive of the Cordage failure for \$9,160,000, and \$6,560,025 in 1894. Manufacturing were \$2,073,956. against \$1,615.571 last year, and trading were \$2,462,067, against \$2,242,511 last year. Failures for the week have been 198 in the United States, against 276 last year and 36 in Canada, against 28 last year.

A SPLENDID BANQUET

Dinner Given In London By the Imperial Institute.

MADE A BRILLIANT SPECTACLE.

resented Every Branch of Life-Speeches by the Prince of Wales and Others.

London, June 19 .- The Prince of Wales. as president of the Imperial institute, presided over a banquet given by the institute last evening to the colonial premiers.

A large crowd watched the arrival of the guests, who were received by Lord Herschell, chairman of the executive commitree of the institute. Everybody wore a decoration of some sort. Stars, ribbons and various orders, together with the splendor of oriental costumes worn by eastern potentates, made a brilliant scene. The guests numbered hundreds and rep-

resented every branch of national and colenial life. Among those present were the Marquis of Salisbury, the Right Hon. Joseph Chamberlain, secretary of state for the colonies, the Earl of Kimberly, the Marquis of Dufferin, Lord Ripon, Lord Lansdowne, the Marquis of Lorne, Lord Rosebery, Mr. Wilfred Laurier, the Dominion premier; Mr. Whiteway, the pre-mier of Newfoundland; Baron Rothschild, Lord Lyon Playfair, Sir Donald Smith, the Canadian high commissioner: the archbishop of Canterbury and a splendid array of men of high rank in the army, navy, church and civil service, with a sprinkling of literary, scientific and artistic notables.

It was 9 o'cleck before the assembly was complete. The Prince of Wales led the procession into the dining pavilion amid the strains of the national anthem.

After dinner the Prince of Wales proposed "The Health of the Queen." In a felicitous speech he referred to the approaching jubilee celebration, adding that he had no doubt they would receive the familiar teast with more acclamation even than was usually the case. This was followed by prolonged cheering, waving of handkerchiefs and cries of "God bless her!" the entire company standing. "I beg you," he said, to "drink with me her health, congratulating her not only upon her diamond jubilee, but upon her record reign,"

This was followed by a renewed ourburst of cheers, the band repeating the music of the national anthem. Amid the enthosiasm the prince called. for one cheer more." This was given, only to be followed by another and that by a third.

Prince of Wales' Response.

The Prince of Wales in proposing the health of the guests gave a cordial welcome to the distinguished gentlemen who had come to celebrate the jubilee. He said he rejoiced to see the Indian princes making common cause with them in honor of heir colonial guests. He was convinced that the colonies would always come to the assistance of the mother country in time of need and danger.

Referring to the enormous growth and increase of the colonies during the record reign, he expressed the hope that the peaceful circumstances under which they were met togerher might long continue.

"God grant it," he said, "but if the national flag is threatened I am convinced that all the colonies will unite to maintain what exists and to preserve the integrity of the empire."

The prince welcomed the premiers and hoped earnestly that their stay would not be irksome. No one, he said, could be more gratified than the queen that they had come to do honor to a great epoch of history.

Lord Rosebery, proposing the "Houses of Legislature, Home and Colonial," said be hoped this unparalleled gathering would not separate without an effort to draw closer the bonds of empire.

The Marquis of Salisbury, responding for the house of lords, confessed that the misgivings he had when the colonial legislatures were first created were entirely unfounded. He said.

"It those legislatures are able to exercise self control and to fulfill their high adeal, they will produce an empire such as the world has not yet seen. There is talk of fiscal union and of military union. Both may, to a certain extent. Le good things, but they will not be the basis upon which our empire will rest. It will rest upon the growth of sympathy and of common thought and feering between the mother country and the colonies."

The Right Hon, Joseph Chamberlain, secretary of state for the colonies, responded for the house of commons. He made no allusion to the colonial office.

The whole proceedings were most enthusiastic. The Prince of Wales has rarely if ever spoken so impressively and feelingly as in his speech toosting the guests.

Attorney General Hancock advised Mr. Schraub, who is special attorney for the state in this matter, that the decision of the appellate division is final, that the attorneys for Armour cannot take an appeal, and that the order of Justice McLennan can be enforced at once.

BRITISH CRUISER ARRIVES.

The Pallas Arrives at Boston and Is Saluted From the Navy Yard.

Boston, June 19.—The British steel cruiser Pallas, Captain Humpage commanding, came to an anchorage in the upper harbor at 3:15 p. m. yesterday, from Halifax. Harbor Master Bragdon assigned the British war vessel the position recently vacated by the United States cruiser New York.

Immediately upon coming to an anchor the Pallas fired the national salute of 21 guns, which was responded to by 21 guns from the shore battery at the navy yard. Next in order was the salute of H guns for the commandant of the yard from the cruiser, which was replied to with a like number of guns from the navy yard.

After these formalities were over Captain Humpage came ashore and paid his respects to the British consul.

Lost Torpedo Recovered.

New York, June 19.—The stray torpedo found on Monmouth Beach has been recovered by the torpedo boat Porter and brought to the Brooklyn navy yard. The torpedo had not suffered at all from its cruise, and when tested its mechanisms worked perfectly. In re-turning up the bay the Porter had a lively brush with the Sandy Hook boat Monmouth. The Porter was under one-third power, steaming with only one of her three boilers, so it was a very close race. Despite her disadvantage the torpedo boat beat the big steamer by a little less than a half mile in the run to the Battery,

LITTLE WORK DONE.

Tariff Debate Drifts Into Political Discussion.

MR. MORGAN'S SWEEPING AMENDMENT

He Proposes a 10 Per Cent Ad Valoreum Duty on All Free Asticles, With Few Exceptions - Talk

Washington, June 19.—The tariff bill came to a halt in the senate, less than one page of the flax schedule being disposed of. The debate drifted into political channels, Senators Bacon, Vest, Jones of Arkansas and Tillman taking part in an exposition of Democratic doctrine on the tariff. It led to several lively exchanges, during which the cleansing of political dirty linen was

frequently referred to. Mr. Tillman's remarks were made with his characteristic vehemence, and at one point he frankly stared, concerning the tariff, that if there was to be stealing he wanted his share for South Carolina. Late in the day Mr. Morgan proposed a sweeping amendment to place a 10 per cent ad valorem duty on all articles now on the free list, with a few stated exceptions.

In supporting the amendment Mr. Morgan called attention to the singular fact that the income tax feature of the Wilson bill is not repealed and can be enforced by a change in the personnel of the supreme court of the United States.

The following nominations were confirmed: Howard M. Kutchin of Callfornia, to be agent at the salmon fisheries of Alaska: James C. Boatman of California, assistant agent at salmon fisheries of Alaska; Frank H. Morris of Ohio, auditor for navy department; Colonel Anson Mills, Third cavalry, to be brigadier general; Major John Simpson to be deputy quartermaster general, with rank of lieutenant colonel; Captain J. W. Pope, assistant quartermaster, to be quartermaster, with rank of majer; Captain J. C. Hester, Third artillery, to be major; First Lieurenant A. G. Quay, Third cavairy, to be captain and assistant quartermaster.

The Tariff on Wool.

Washington, June 19 .- The advocates in the senate of an increase in the duty on wool have held a meeting and decided upon the following as the rates which they will ask the committee to fix on wool:

First class, in grease, unskirted, 19 cents per pound; in grease, skirted. 🛍 cents per pound; if washed, double these rates; if scoured, treble.

Second class, in grease, unskirted. 11 cents per pound; in grease, skirted, 13 cents; if washed, double; if scoured, treble.

Third class, worth not exceeding \$ cents per pound, 3 cents duty; worth over 6 cents, or not exceeding 10, \$ cents per pound; worth over 10 cents per pound, 8 cents duty; if sceured,

These rates are much higher than those originally fixed by the senate committee, and the wool men regard them as more advantageous than these of the house bill or those of the Mc-Kinley law.

There were present at the meeting 12 or 15 senators, representing all the states in which wool is an industry of special importance.

The near approach of the wool schedule in the senate's consideration of the tariff bill has caused the subject of the wool duties to receive unusual attention. There was at one time a prospect of a Republican caucus on the subject, but it was decided instead to present the claims of the wool men to the finance committee, with the hope that they would concede the increases

If the concession is not made, a caucus is probable.

The Massachusetts Off For the Jubilee.

Boston, June 19.-The United States pettleship Massachusetts which arrived here May 26 to participate in the unveiling of the Shaw monument and receive the bronze statue of Victory from the commonwealth, will leave here for St Johns, N. F., where she is to assist in the golden jubilee festivities at that port Pilot Franklin B. Wellock, who brought the battleship around from New York, will navigate the vessel to the outer light. The Massachusetts will return here in about two aceks in order that the naval brigade may hold its annual tour of duty on b⊝ard.

Cashler's Shortage Increasing.

Lockport, N. Y., June 19 .- The shortage in the accounts of William H. Scott, the New York Central railroad cashier, which was thought to be about 8500 is now estimated at over twice that amount. An examination was made last November and all Scott's accounts were found in perfect order. It is supposed his peculations date from that time Auditor Pollock of the New York Central, who has been conducting the investigation, refuses to make any statement concerning the shortage.

Benk Cashier Dies Suddenly.

Northfield, Vt. June 19 -Carey B. Thayer, treasurer and cashier of the Northfield Savings bank, died sud-denly of apoplexy. He was 73 years of age and one of the early settlers of the town and had been connected with the bany since its institution, in 1867. He was one of the most prominent business men in Washington county.

Building of the Hazard Company at Hazardville Destroyed.

THREE EMPLOYEES INSTANTLY KILLED

Cause of the Disaster Will Probably Never Be Known-Windows Shattered In the Nearby Villages-Second Accident Within a Year.

Hazardville, Conn., June 19 .- One of the barn crackers, a small building attached to the plant of the Hazard Powder company, was blown to pieces yesterday afternoon by the explosion of a quantity of powder. In the building at the time were three men, all of whom were instantly killed, and nearby stood a horse, owned by one of the victims, and it, too, was torn to pieces. The dead: Richard May, workman, married, Barber S. Stratton, head mechanic, unmarried, and M. W. Pierce, overseer of mills, married.

The building in which the explosion occurred, as stated above, was one of the cracker houses and formed a part of a plant of 100 small buildings in which the preparation of powder was carried on. Because of its location, near several barns, it was known as the barn cracker. Strictly speaking the building was used as a corning mill, where the powder was converted into granular form. Only one man was employed in the building at any time, and Richard May was the one who has been on duty there for some time.

The 100 workmen employed about the plant had just returned from their noon hour meal, and May as usual entered his mill. Five minutes later he came out and reported to Overseer Pierce that something was wrong with the mill, and May, accompanied by Pierce and the head machinist, B. S. Stratton, returned to the building to remedy what was wrong.

They were not seen alive again. At 1-15 the whole village was shaken by a terrific report, and the workmen, rushing out, saw the air filled with debris.

Every window pane in the vicinity was broken, and many in the village were also shattered. Buildings adjacent suffered from the damage, but none of them caught fire. Telephonic queries began to pour in from sur-rounding towns, indicating that the report of the explosion had been heard at a great distance.

As soon as the smoke had cleared away an investigation was begun, and it did not take long to find that three men had lost their lives. Workmen with blanched faces approached the Mated "cracker," expecting to find the frightfully mutilated bodies of their comrades.

The unfortunate men had been instantly killed, and the clothing had been stripped from their bodies to some extent. Strange to say, however, the bodies of the men were not badly torn. and each of the three was easily iden-

Just how the explosion had occurred will probably never be known. It is supposed, of course, that in their efforts to repair some injury to the corning mill, some powder had been set

Cause of the Explosion.

Work was suspended for the rest of the afternoon, and the bodies of the victims were tenderly cared for. The entire village had rushed to the scene, and harrowing scenes were enacted when members of the bereaved families learned the truth.

No attempt has been made to estimate the money damage, the thoughts of every one having been diverted by the awful fate of the three well known villagers.

This is the second explosion which has occurred at this plant within a year. Early on the morning of Sept 19 last, during an unusually heavy thunderstorm, one of the crackers was struck by lightning, and a vast amount of powder was exploded. The employees had not come to work at that hour, however, and there were no fatalities.

Late yesterday afternoon the officials of the Hazard Powder company authorized the following official statement of the explosion:

"At 1:20 this afternoon a corning millwas blown to pieces, and three men were killed. The money damage amounts to about \$5,000. The men were in the wheelroom, and their bodies were thrown distances varying from 25 to 100 feet, but the remains were only slightly mutilated. M. W. Pierce leaves a wife and two children. Richard May a wife and two children, and B. S. Stratton was unmarried. The mill was not in operation at the time of the explo-Fion. This building has been used as a corning mill for 30 years.

Identity of Vulgar Letter Writer Disclosed by Suit of a Valet.

CASE RECALLS A FORMER SENSATION.

The Servant Complains That He Was Not Paid For His Services In Ascertuining the Authorship of the Scurrilous Letters.

New York, June 19.-The writer of the scurrilous anonymous letters on Knickerbocker club paper concerning the marriage of Miss Grace Wilson to Cornelius Vanderbilt, Jr., is known.

This fact has just been made public through a suit brought again, the multimillionaire banker, Richard Wilson, by his former valet, Albert V. Sugden, for \$1,0%, \$1,000 of which, hsays, he was promised for discovering the author of the letters, and the ... mainder was promised as increased salary for two months.

Now he alleges that although he did secure the desired information he was never remunerated for so doing.

Sugden is a bright young Englishman. He was discharged from Mr. Wilson's service on Feb. 7 last, after the excitement caused by the reception of the letters had somewhat passed away. He claims that he has been unable to get another position because of alleged bad reports Mr. Wilson has made as to his character.

In Sugden's petition, which was drawn by Lawyer Robert P. Noah, he says that Mr. Wilson engaged him on Dec. 14, 1896, to find out who wrote the anonymous letters.

He was to secure, according to the

petition, "evidence necessary to determine, ascertain and locate the party or parties who had circulated certain reports derogatory to and concerning the plaintiff's daughter, which said reports derogatory to his said daughter had become public property through the publication and medium of the public

Sugden declares that Banker Wilson did not keep his promise.

De Lancey Nicoll, as attorney for Mr Wilson, has put in an answer to the suit. He denies that the valet was employed to do detective work and that Mr. Wilson promised to raise his wages \$15 a month. The case is on the calendar of the supreme court. Compromise Not to Be Considered.

The suit was begun on April 14, but was held back with the hope that a compromise might be effected. Mr. Wilson, however, would not consider the

The marriage of young Mr. Vanderbilt and Miss Wilson took place in July, 1896. 'The groom's family objected to the alliance, and the wedding resulted in an estrangement between the young man and his father. The anonymous persecution of the young couple began before their marriage and was kept up for several weeks.

Letters denouncing them both were sent to the bride and bridegroom. The letters were written upon the paper of the Knickerbocker and Metropolitan clubs, and they were fastened with the seals of these clubs. That fact naturally caused the public to think that the writer was a member of these clubs.

The author desiring to have the attacks printed, sent several letters to well known newspaper writers.

The motive of the anonymous persecution could not be conceived. There was no mention o<u>f mon</u>ey in th<u>e letters</u> and the theory of blackmail was not Disappointment in love was suggested, but those who knew Mrs. Vand-rbilt all through her girlhood declared that she never had such an entanglement. The attack was so unexperted, so undeverved, that no one could suggest a reasonable motive for it.

Society People at Odds,

The Vanderbilts and Wilsons are at Newport. They meet nearly every day, but they do not speak. A family feud that may be long continued was caused by the marriage of Mr. Vanderbilt and Miss Wilson,

The wedding of the young couple was proceded by several sensations. The first announcement of the wedding was made by Miss Wilson's father on June 10, 1896, and the date was fixed at June

But at that time young Mr. Vanderbilt was confined to his bed with infiammatory rheumatism, and the wedding was postponed.

Then it was rumored that Mr. Vanderbilt had decided to obey his father's wish and not marry Miss Wilson.

This was followed by the startling announcement, on July 13, that Cornelius Vanderbilt, Sr., had been stricken with apoplexy. This was caused, it was said by his son's determination to wed Miss Wilson.

The wedding occurred on Aug. 3 at the home of the bride's parents, on Fifth The ceremony was performed by the Rev. William H. Pott, assistant rector of St. Thomas' Protestant Episcopal church. The marriage was witnessed only by the members of the Wilson family and Frank L. Polke, who was best man.

Cook Burned to Death.

North Adams, Mass., June 19 .- Mary Starkweather, a cook at the Richmond House here, accidentally overturned a kettle of fat while frying doughnuts and was burned to death. The fat caught fire, and the worsan was enveloped in the flames. She was alone at the time, and her screams, when heard, brought help too late to save her, although the fire was quickly extinguished. The woman died two hours later. She was 48 years of age.

Fatally Injured at a Fire.

Middletown Conn., June 19 .- A fire of unknown origin gutted the three-story brick block on Laberty street, owned by Richard Commerford. American Legion of Honor Insurance Rates Advanced.

From information received from one of ne American Legiou of Honor members we learn that, commencing July 1st, a new seledule or rates will begin. The new rates are particularly severe on the old members, as they nearly reach the amount of the old line rates at advanced ages. The American Legion of Honor has helped a vast number of widows and orphans, yet still it seems an unfortunate fact that the members who have been the backbone of the order for so many years are now undergoing the "freezing out"

"I have never had a day's sickness in my life," said a middle-aged man the other day.

"What a comfort it would be," sighs some poor invalid, "to be in his place for a year of two." Yet half of the invalids we see might be just as healthy as he, if they would only take proper care of themselves, eat proper food-and digest it.

It's so strange that such simple things are overlooked by those who want health. Food makes health.

It makes strength-and strength wards off sickness. The man who had never been sick was strong because he always digested his food, and you could become the same by helping your stomach to work as well as his. Shaker Digestive Cordial will help your stomach and will make you strong and healthy by making the tood you eat make you fat.

BERNHARDT TESTIFIES.

Declares Her Health Benefitted by Paine's Gelery Compound.

The enthusiasm and the curiosity pronervous mobility, grace, smile, voice, charm, poetry-Mme. Sarah Bernharnt has them all.

Bernhardt is today as enthusiastic in her profession as though her career were before her. She works as assiduously during rehearsals as though each performance were her "first night."

No one is more conscientious in all matters pertaining to her life work. She knows the i calculable value of health, strength and high spirits as she comprehends the terms of her contracts, and no one knows better than she how essential to her artistic success is a vigorous nervous system.

"I beg leave to state that, according to your instructions, I have used Paine's of the great practical value of Paine's celery compound, and I am convinced celery compound than is heard from the that it is the most powerful nerve lips of women who have been made well strengthener that can be found.

"It is with the greatest pleasure that send you my sincere testimonial.

Truly yours. Sarah Bernhardt." Good health is within the reach of famous, the poor as well, who will rely on Paine's celery compound.

Ill health and disease are natural. One condition: should not compromise with them. No one should give in to neuralgia, rheumatism or heart trouble when Pame's celery compound is vouched for to drive them entirely out of the system. It has done so in thousands carefully observed

The nervous debility, sleeplessness and voked by Mme. Sarah Bernhardt has kidney disorder that seems so threaternever been equalled in the history of the ling and disheartening lose their hopeless stage. One talks vaguely of genius, desperate character when one takes temperament, quick intelligence, passion, | Paine's celery compound to drive them out of the system.

Many a woman worn out by exciting, auxious work, will find her strength brought back in a wonderful manner and her overtaxed nerves regulated and nourished by the use of Pame's celery compound. Paine's celery compound braces and invigorates the relaxed nervous system and eradicates harmful humors from the blood. It makes the appetite hearty and the digestion thorough: it permanently cures indigestion, a sluggish action of the liver, and drives out rheumatism, neuralgia and blood impurities. Every trace of nervous exhaustion or kidney or liver weak-Mme Bernhardt writes the following ness is removed by Paine's celery compound.

There are no more striking examples by its vitalizing action,

It increases the volume of the blood in the arteries and makes it more capable of feeding the body. It creates a hearty appetite and urges upon the tired nerves every one, not only the wealthy and and brain the nourishing elements they lack but are slow to extract from the blood when it is in a sluggish, unhealthy

The blood becomes ruddy and pure: its rirculation is hastened, and every function of the body-the brain among the first-feels the fresh impulse of returning health from the use of Paine's celery compound.

SATURDAY, JUNE 19, 1897.

Secretary of War Alger will give a hearing, next Wednesday, on the application of the New York and New Jersey Bridge Company for permission to change its plans so as to conform to the new pier lines in New York city. The hearing really involves the question whether the Bridge Company has not forfeited its franchise through its failure to spend \$250.000 in construction within a year after the approval of its original plans.

The Senate talked politics, yesterday, and only one page of the flax schedule of the tariff bill was disposed of. During the wrangle. Senator Morgan called attention to the fact, which has apparently escaped notice, that the pending bill does not repeal the income tax section of the Wilson bill and that it could be enforced at any time, if a change in the personnel of the Supreme Court should place on the bench a judge who invored the income tax and who would be a party to making that court of many stage were the members of the graduaminds change its mind again and declare an income tax constitutional.

Japan insists, and rightly, that all international obligations between it and the Hawaiian Republic mu-t be recognized, assumed and made good by the United States. No reference to anything of the kind is, however made in the treaty of annexation, and the only obligation as killingly as possible to the audience. that the United States agrees to assume | The first sentence of essay or oration was is \$4.000,000 of the Hawaiian debt. Commercially Japan's triendship is worth a great deal to the United States. It is worth much more than Hawan can ever be, and the United States will make a poor bargain if in reaching out for Hawan it offends the vigorous young nation on the other side of the Pacific.

Ninety per cent of the silk manufacturers of the United States have petitioned the Senate to reduce the rates m the silk schedule. They declare that they prospered under the McKinley duty of flity per cent, and are doing well under the present duty of forty-five per cent, and that because the manufacturers of light-weight silks want a duty of 100 per cent, it is no reason why the duty on heavy-weight silks should be increased to a point that will prohibit their importation. What the maniincturers lear is that Prench and English manufacturers, finding themselves shut out of this market will establish silk factories here and make the competition for the American market infinitely keener occurred at 3 o'clock. than it would be if existing conditions. REHEARSING FOR COMMENCEMENT

President Wiggins Put the Graduating Class Through Their Paces, Friday

If an Argus reporter who was present at a rehearsal of the commencement programme at the Cisino, Friday afternoon. should write a story of just what he saw he would lose his pull with the sweet girl graduates and young Demosthenes of the class for all time to come. The audience on this occasion was two, a criticising teacher who has performed her function before and the reporter. On the ting class and the graceful President of the Board of Education, H. W. Wiggins. He lined them up and presented the Japan's objections to our annexation | imaginary diplomas just as he will do it of Hawaii are likely to be much more next week, and the graduates walked up with stately steps and bowed as the coveted sheep-kins were delivered.

Then they were sent off the stage to make a center entrance, bow to the preside it to the right, then takeone step, bow to the faculty on the left, then walk straight to within a few feet of the danger wire at the foot lights and bow then given, and then the last and final how, with stunning exit to the left.

The graduates had evidently rehearsed before, for they had it down pat. They received many compliments from the

INTERMARRIRD ROYALTIES. Kingly Families Are Related Through Many Converging Ties.

Attention has recently been drawn to the extent to which the royal family of Denmark is related by marriage to the governing families of other European kingdoms. Christian IX. of Denmark, the oldest secular ruler in Europe, is the father of the princess of Wales (wife of the future king of England), the father of George I., king of Greece, and the father of Empress Dagmar, mother of the emperor of Russia, Nicholas II. In the present complications in and about Crete, the English and the Russian governments are perhaps more deeply interested than any other, and the relation which they bear to King George is therefore of the very first importance. He is related by marriage to the royal house of each empire, one sister being the mother of the Russian emperor and the other the daughter-inlaw of Qucen Victoria. The king of Denmark, however, is

not the only monarch of Europe at present who owes much of his influence to matrimonial alliances. The present emperor of Austria. Franz Josef, has two daughters, the elder of whom, Gisela, is married to the second son of the regent of Bavaria. His son Rudolph, who died by suicide in 1889, was married to the second daughter of Leopold II., the king of Belgium. The present king of Portugal, Charles I., is a son of a daughter of Victor Emanuel. The heir to the throne of Savoy married the daughter of a former king of Portugal, and his oldest son married Archduchess Louise of Austria. The present king of Greece not only is the brother of the dowager empress of Russia, but he married Grand Duchess Olga of Russia, and a younger brother married Princess Marie of Orleans, a niece of comte de Paris, whose son, the duke of Orleans, is the Bourbon aspirant for the crown of France. The eldest son of the king of Denmark married Princess Louise of Sweden, who is a niece of the present king of Sweden and Norway, Oscar II The eldest son of the present king of Greece married Sophia, the sister of the present emperor of Germany, whose brother Henry is married to a daughter of the late Princess Alice of England, a daughter of Queen Victoria, who died in 1878. The heir to the throne of Roumania is the busband of the eldest daughter of the duke of Edinburgh, second son of Queen Victoria, and this list does not by any means exhaust the summary of relationships between the royal families of Europe.

It was said in former times that the integrity of the once powerful and always proud empire of Austria was maintained only through the fact that the princes of the house of Hapsburg. not handsome men themselves, had all of them beautiful daughters, and the marriage of these daughters to the scions of other royal houses in Europe had the effect of forestalling and preventing the dismemberment of the Austrian empire. frequently threatened after each successive defeat of the Austrian soldiers in battle. At the present time it is the royal house of Denmark, rather than that of Austria, which exercises the largest measure of influence, matrimonially, on other European courts.-N Y. Sun.

MAPES' BALANCED RATION FOR POULTRY.

We have long felt that there is room upon the market for a cheap effective poultry food.

Mr. O. W. Mapes, of the Electric Poultry Yards, is making a special study of the science of feeding a hen, and we have arranged with him to make such a food.

It is made exclusively from wheat, oats, corn and meat, mixed in just such proportions as science and practice have proven will give the nutritive elements needed for best results. We shall be pleased to have our customers give it a trial. This food is equally good for growing chickens or laying hens.

NEARLY CUT HIS HEAD OFF.

With a Razor at Pilgrim's Corners-Body Found by Wis Father in an Or-Health the Probable Cause.

Coroner Decker was called to Pilgrim's Corners, about 6 o'clock, Friday night, where the body of James Van Keuren had been found lying in an orchard, the throat slashed with a razor until the head was nearly severed from the spine.

The discovery was made by the father of the victim, Isaac Van Keuren, who lives on Monhagen avenue, near the Corners, about 6 o'clock, Friday night, 1

Summit. His son, who was thirty-six years of age, had not acted entirely right of late and when James started for John McBride's farm, near Pilgrim's Coroners, to look for work and did not return the father became alarmed and followed. He found that the son had not been at Mr. McBride's and on returning, accompanied by Mr. McBride, he made the horrible discovery of his son's self-inflicted death.

On the arrival of Coroner Decker the body was removed to his late home by Undertaker Rockafellow and a jury viewed it and took an adjournment until to-night, when an inquest will be held at the Van Keuren house.

The victim was without coat and vest when found. He laid on his back in the field adjoining the lane and the instru- A. Robinson, D. D., will deliver the adment of death was still in his hand. He sharpened his razor on finishing shaving and when asked by his mother if he was sick he replied, "No," and she asked: "If you are not sick why do you act so strangely?" 'Because," said he, "sometimes I don't know where I am or what I am doing."

The deceased was born near Haven, Sullivan county. Dec. 11, 1860. His parents. Isaac Van Keuren and Elizabeth Jansen Van Keuren, and one sister. Mary J., at home, survive him. The family lived in the town of Wallkill for twenty years'and much of James' life was spent helping his father. Capt, J. J. Cox's Condition Is No Better

A gentleman who call d on Capt, J. J. Cox at the Hudson Street Hospital in New York, Friday, says: "One physician said that he believed the Captain would get around all right, but it would be a long and tedious term. Another physician said that Capt. Cox was in the same condition as when he was brought there. No bones are broken, but it is my opinion that the whole staff is in the dark awaiting developments."

Justice of the Supreme Court. W. G. TAGGART, Clerk. THE ROYAL WAY.

High-Born Dames Carry Their Own Bedding on Their Travels. Few royal folks when traveling require their bedsteads and bedroom furniture to form a portion of their luggage, as the queen does, for instance. But many great ladies there are who

carry their own beds and bed linen,

blankets and quilts, and always a mackintosh sheet to spread over the mattress to guard against dampness for lack of sufficient airing in transit from place to place. Grand Duke Paul Russia, it is true, is always, when traveling, accompanied by a bedstead, which he has had built in sections, and which is put up by a special mechanic, under the superintendence of the royal valet, wherever the grand duke goes, but then it is simply because he can seldom, owing to his great height, meet with one long enough for Lis comfort, says the Philadelphia Press.

It does not appear to be generally known that among the servants of the queen are two bearing the title of her majesty's tapissiers. One of them follows the court wherever it may be, and the other remains permanently at Windsor. The duty of these functionaries is to superintend the packing of the queen's baggage when the court migrates, and their work is so perfectly organized that every member of the establishment concerned knows almost to a minute when he or she must be ready to receive a visit from the packer.

It is also the duty of the tapissiers to maintain communication from palace to palace with reference to all matters which cannot be brought within the limits of the royal mail boxes: to know by heart all railway and steamship routes, and to be able to convey any desired article from one place to another by the swiftest and safest method.

NATURAL COKE.

It Is Claimed There Is a Deposit of It in the State of Utah.

In works of mineralogy it is learned that there is such a product as natural coke, but so far as known there has but one deposit of this commodity been found in the United States, and this was in the vicinity of Richmond, Va.

Although the deposits of coal in Utah are immense in their proportions, it was never dreamed that among its commodities of trade and commerce the state could boast of beds of this natural coke, but such is the case, however, and the Salt Lake Herald is informed that a short time ago a vein of this coke had been discovered in a section of the country about 140 miles south of this city, and within 15 miles of a railroad.

This deposit crops out on the surface for some distance, and a 25 to 30-foot tunnel has disclosed a body of coke that is all of five feet in width, and there is every reason to believe that with depth the size of this deposit will increase. In quality the coke is all that could be desired, and at the assay offices at which it has been tested the statement is made that it is a pure article, and that it is even superior to the manufactured coke, as it is entirely free from sulphur, bitu- No. 77 " men, and that it gives out no smoke | Sold by Druggists, or sent prepaid when burned, and makes less ash than the manufactured article.

The new find, which is considered as being among the most valuable that has been made in the state, is owned and controlled by ex-Mayor R. N. Baskin and several other Salt Lake gentlemen. who have located 640 acres in the immediate vicinity of the discovery.

FORGET THEIR CHANGE,

Men in a Hurry to Get Away After Making Their Purchases. A man entering a State street bookstore, made several small purchases, threw down a dollar bill to pay for them, and as soon as his package was handed to him turned to go out. The clerk called after him, says the Chicago Times-Herald.

"Hi, there! Don't you want your change?" and he handed the customer the best part of his dollar.

"That happens every day," said the clerk, "and we give quite an amount at the end of the year to charitable organizations from the fund created by change that has not been called for. It seems as if customers have only or e idea, and that is to get their goods and ; o away "

"Do they ever come back for the Change?

"Very rarely, and then it is always for change that was left somewhere else. I otten wonder how such people get through the world. And another funny thing is, the customer never seems to expect the change when we offer it to them, that is after he has forgotten it. You saw how that man looked when we called him backiust as ii I was making him responsible tor some other man's mistake. Ti takes all kind of people to make a world."

Sinking of Cape Cod.

The Boston Transcript refers to the recent indications that Cape Cod is gradually sinking or wearing away. I few days ago workmen at the Provincetown pumping station found, 17 feet below the level of the surface of the ground and six feet below the sea level a four-inch stratum of mold composed of decayed leaves, fibrous matter, and fragments of tree trunks and branches. This would seem to indirate the land has sunk, for fresh water is found on the cape at a level about equal to the sea level at thean tides.

When the prospective mother looks forward with dread and forboding something is wrong her health is not what it ought to be; she has neglected the means which nature and en-lightened science pro-vide to make baby's advent free from danger and anxiety and nearly free from pain. Thousands of mothers

have obtained the most wonderful help and sustaining power through their time of waiting and of trial by using Doctor Pierce's Favorite Prescription. It is the grandest strengthener for prospective mothers that was ever invented. Taken during the expectant period, it tones up the nervous system;

gives vigor to the general constitution and imparts special power and endurance to the delicate organs concerned in parturition. It shortens confinement; makes delivery absolutely safe and comparatively easy; fortifies the system against relapse and promotes a supply of healthy nourishment for the child:

For all women who have any weakness or disease of the organs distinctly feminine, Dr. Pierce's Favorite Prescription is the most perfect remedy ever devised. It is the only medicine of its kind invented by a regularly graduated, experienced physician. regularly graduated, experienced physician.

Mrs. Nancy J Porter, of Rodney, Monona Co, Iowa, writes: "I can recommend Dr. Pierce's Favorite Prescription as being far ahead of any other medicine for a woman raising a family. I have three children for the first two I have suffered each time for twelve hours. Before my last child was born I took. Favorite Prescription, using only three bottles of it, and when I was confined I suffered very little, and was in labor only a very short time."

THE BEGGARS OF ITALY. Physical Deformity Is Artificially Produced.

"Bicycling Through the Dolomites" is an account of Col. George E. Waring's European trip of last summer. Concerning mendicancy in Italy, Col. Warng writes: "Perhaps there is no better index to the good or bad condition of the working-people of a country than is afforded by the number of beggars one meets on the roads. The poles set up at the border of Austria, with their spiral stripes of yellow and black, do not mark the line between it and Italy much more clearly than does the advent of the beggar the moment the line is crossed. In Austrian Tyrol there are virtually no beggars. On the Italian side, even well-dressed people in the fields will leave their work to beg coppers from the passing travelers. One day, in the upper Innthal, a couple of bright-looking, rosy-faced children ran after us, asking for kreutzers. "Mawknix" upbraided them for such a shameful act, and they slunk away. He spoke of this with much indignation to a neighbor, who said their whole family were away in the fields at work, or they would not have dared to beg, and tha he would see that they were well spanked when their mother came home at night. Nuns and a few favored cripples sometimes ask alms at the doors of the churches in the larger towns, and the "poor box" is always found inside; but the peasantry and the churches take care of their own poor, so that the vice of beggary is unknown among them. In Italy, on the other hand, it is obvious that special conditions of deformity are artificially produced. Both legs broken and badly reset in childhood constitute a good source of income for life; and anything that appeals to sympathy is made the occasion for cultivating a very mistaken and mischievous charity.-Cen-

Army Pamilles in Army Posts. If the Fort McPherson court-martial proceedings will belp do away with the obsolete system of enforcing residence at army posts of the families of officers, it will serve at least one useful purrose. So long as the army was stationed in the "Wild West" it was of course necessary for the government to provide facilities in the way of residence, etc., but wherever, as is now generally the case, the vicinity of a post affords such facilities, officers and their families ought to be permitted to dwell wherever it suits their means or convenience, as is done in all civilized European countries. The enforced residence, in close juxtaposition, of famlies who might find themselves placed in an uncongenial position, can only tend to discord and make trouble. Another disagreeable feature, that of frequently shifting of quarters by the arrival of an officer claiming assignment according to his rank, could only be cone away with if there were no quarters to be assigned. There would seem to be no more necessity for an officer's family living at a military post than for a policeman's family living in the tation house. The women and children are not needed there, and their Assence would be in many respects a belief to the service.-Army and Navy

CURE age. by mail, \$1.00.

MR. PURDY'S CURIOSITIES.

Mas Eight Baby Rats as a Result of s Catch of Several Bays Ago, L. L. Purdy, proprietor of the Holding House, has been busily engaged the past

two days, exhibiting a mother rat and eight baby rats. The story of these rats is a long one

and would make interesting reading if given in detail as told by the old frequenters of this popular hostelry.

To sum it up it may be said that several years ago the proprietor of the hotel, Chris. Weidman, now deceased, owned two cute white rats which were admired by guests of the hotel. Every body played with them, led them and finally made so free with them that their owner became careless and the rats escaped. They were not disposed to quit a good hotel, however, and they took up their abode in the cellar where for years they have inter-mingled and bred with the dusty brown fellows that injested the place.

Since Mr. Purdy's occupancy of the hotel he has kept a trap steadily at work in the cellar with unsatisfactory results. About a week ago, a child was running about the hotel dragging the cage behind him, and to ease up the noise Mr. Purdy put the trap in an almost empty closet under the counter in the hotel bar. He bad occasion to open the closet about a week later, or to be exact, on Wednesday, when he found a light grey colored rat last in the trap. It was a descendant of the escaped pets of a few years ago, and Mr. Purdy placed it in a cage in the barroom, and the "white rat story" was rehashed many times.

But Friday morning this story was eclipsed by the sight which met the first spectator. One, two, three-eight little hairless, eyeless rats were present. Towards noon they began to develop their missing faculties, and by night they were all kicking and rolling around like good

Not many Middletowners have seen rats a day old, and the chance has been accepted freely, to-day.

SCHULTZ TRIES TO KILL HIMSELF

The Convicted Wife Murderer Attempt to Strangle Himself in Milford Jail.

Herman Paul Schultz, the convicted wife murderer, attempted suicide in the Milford jail. Thursday night. The Sheriff, fearing that the man, who has eaten nothing since his conviction, last Sunday, would attempt self-destruction, bas had a night watchman on duty in the jail and he, hearing sounds of labored breathing from Schultz's cell entered it and found the prisoner unconscious with a strip torn from a blanket knotted tightly about his throat. A physician was called and he soon succeeded in restoring Schultz to consciousness.

The jail officials found a letter addressed to his sons, who testified against him at the murder trial, in which he said that he forgave them "for swearing his life away falsely" and appealed to them "to forsake the evil tenor of their ways and hve good, useful lives." The letter also said that he forgave all who testified against him.

General regret is expressed in Pike county at the excessive zeal of the watchman. It is felt that it would have been a good thing to have allowed Schultz to save the county the expense of hanging

The Bells at Genung Street Crossing.

The accident to the Doyle wagon at Genung street, Friday afternoon, has started as argument as to whether or not the chetre bells rang. They were ringing all the remainder of the aftern son at the approach of trains and Mr. Dovle doubtless inded to notice that they were rung by another train than the one he saw go east

The Ladies Whist Club Gives Its Dues to the Fresh Air Fund-Personal Mention-4 Tactless Man-A Worthy Charity-Concerning Care.

From a Special Correspondent

-The Ladies' Whist Club held a very pleasant meeting at "Youngstead," on Wednesday afternoon. It was then decided to donate the dues collected since last October to the Fresh Air Fund. No formal meetings of the club will be held after the first of July until the autumn. -Dr. E. L. Parker, who has been enjoying a vacation of several weeks, will

return to his home in this village, to--Dr. Henry Bacon, who has for some time been the guest of his uncle, Hon.

in Florida. -It does not seem consistent for a man who has promised to love and cherish a woman until death does them part to put live snakes and toads into her bed, yet now a New Jersey woman is trying to get a divorce from her husband on the ground that this has become a habit with him. If he wished his wife to enjoy having such bed fellows, he should not have commenced with snakes and toads at first, but should have used her to them gradually by slipping in, say an earth worm or a pollywog to begin with. In this way she might have, after a time.

become accustomed to all the largest and clammiest of creatures, even to alligators and crocodiles. It showed a great want of tact in him to start with snakes. for they always did make trouble between man and wife. -Among the many charitable societies

it seems to the writer that one of the worthiest is the one that has been organized for the benefit of the "Little Mothers," those poor little waits whose mission in life is to care for other little waifs still smaller than themselves. It is pitiful to think of these poor little things scarcely more than babies themselves who, without any childhood of their own, have the cares and responsibilities of life thus thrust upon them. Even the young of the "beasts that perish" have a little time in which to kick up their heels and enjoy themselves and, in this respect, are better off than quite a proportion of humanity. It is always pathetic to see a child with a woman's cares, or one who bears pain very patiently. It is natural for untrained human nature to cry out when it is hurt. and, when it does not, it must have suf-

-Speaking of this same care it really ages people much more than the years that pass over their heads; and the one who can take it lightly is the one who will remain young the longest. Care is a very constant, companion it we will but let him be so, ever ready to sit by our bed at night and remind us of his presence if we waken. His shadow falls upon us often when we least expect it. Happy is he who can close the front door upon him when he goes out, for, if he is not made a close prisoner he will tollow and darken the brighest scene and the merriest gathering.
